The Tutorial[™] Programme

The Tutorial[™] - with personal tutor hours

Tutorial means the scholars choose individual lessons with a personal tutor. 2 or 3 tutors are assigned to each participant. These sessions are conducted in studious isolation, allowing scholars to concentrate at their fullest.

Course Components

The Tutorial[™] Programmes are specifically tailored to the needs of the individual. Due to its intense and personal nature, the Tutorial[™] is a powerful catalyst for growth, one that helps shape an assertive bilingual ability. The scholar is assigned different tutors throughout the day, who adapt the style and pace of their pedagogical approach. Learning materials are selected specifically; some students choose to bring documents used often in their place of work or study in order to tackle the linguistic challenges they are confronted with in their day-to-day life. Extensive personal attention and detailed feedback ensures that the participant advances cogently in their competencies.
