

## Arrival Transfers

OISE is happy to arrange a personal transfer service for adult and professional students on their arrival into the UK.

A taxi transfer service can be chosen at the time of enrolment and this is booked by the school on behalf of the student. This taxi service takes the student from the point of arrival (airport/station) directly to the accommodation address.

Alternatively, the school can provide information about travelling from the point of arrival by public transport. All airports and stations are served by good public transport links.

To arrange this service, the OISE school will require the student to send details of the arrival flight at least 5 days before arrival.
